Thank You!

Accomplishments

- SeisComP3 configuration procedures
  - Add a new station from a seedlink source
  - Configure automatic modules
- Reconfigure a system for playback – essential for tuning. See events in your system
- Ability to share data with FDSNWS, Seedlink or Arclink
- Instructions how to set up SeisComP3 from scratch when you get home

Future

http://love.isti.com/pretoria2017

Has all of the presentations from this week, updated.

Has more presentations!

- Local data acquisition
  - Examples how to add Quanterra, Reftek, Guralp digitizers to seedlink
- Miscellaneous Tuning
  - Includes various items students asked about
